# Milestones Checklist

coordinatingcenter.org

### **How to use this Checklist**

Welcome to The Coordinating Center's Milestone Checklist, your guide to navigating the path from birth through life after high school for children and youth with special health care needs and disabilities. The Milestone Checklist was created in partnership with families and The Coordinating Center's Transitioning Youth Committee, which is comprised of care coordinators with expertise in transition services for Children and Youth with Special Health Care Needs, (CYSHCN) across all of The Coordinating Center's programs. Although all children and youth with have individualized goals and outcomes, you can use this guide as a stepping stone for navigating:

- 1) Infants and Toddlers
- 2) Pre-K, Kindergarten and Elementary School
- 3) Middle School
- 4) High School

Within each of these four stages of development, the Milestone Checklist serves as a reminder to take action early, placing emphasis on early childhood screening, medical care, financial well-being, education, legal issues, behavior management, community-based services and supports, socialization and transition planning and services. There is also a resource directory with direct links to programs and services. We encourage you to look at the stage of life you or your child is in, but also look ahead so you know what to expect in the future.

Contact us at <a href="Marketing@CoordinatingCenter.org">Marketing@CoordinatingCenter.org</a> if you have any recommendations for improving this resource. Let us know if a resource is missing, or a resource link is no longer active.

YOUR HEALTH. YOUR JOURNEY. OUR PRIORITY.

The Coordinating Center, is a Maryland statewide nonprofit, whose mission is to partner with people of all ages and abilities and those who support them in the community to achieve their aspirations for independence, health and a meaningful community life. At The Coordinating Center we aim to dismantle inequalities within our policies, systems, programs and services by embracing Diversity, Equity, Inclusion and Belonging (DEI&B) and leading with respect, acceptance and compassion. It's what makes us exceptional in achieving our mission and drives us to deliver culturally competent and effective care coordination services. We believe we are stronger together.

### **Medical**

Continue to maintain wellness visits; begin to have your child take an active role in managing their health care beginning at age 14. Explore these resources: <a href="https://www.gottransition.org/re-source/?hct-timeline-youth-young-adults">https://www.gottransition.org/re-source/?hct-timeline-youth-young-adults</a> and <a href="https://www.gottransition.org/re-source/?hct-questions-ask-doctor-youth">https://www.gottransition.org/re-source/?hct-questions-ask-doctor-youth</a>

Continue to maintain a file for all medical information and school psychological records.

Note: Psychological evaluations are completed every three years, unless the entire IEP team deems it not necessary, Psychological evaluations are necessary for certain programs such as the Maryland's Home and Community Based Services Waiver for Children with Autism Spectrum Disorder (Autism Waiver) and Maryland's Developmental Disabilities Administration (DDA) Waivers.

Note: These evaluations can and should be maintained as they may be useful for any services sought OUTSIDE the school system, through your insurance, Medicaid, or any other funding source i.e., Maryland Developmental Disabilities Administration, DDA).

## Legal

guardianship or power of attorney procedures and determine the child's best interest. Age 17: Discuss age of majority, to prepare for the transfer of rights to your child at age 18. The student should be informed of the pending transfer of rights, and a statement of consent should be included in the IEP. The student should spend the year preparing for the transfer. If families and students feel uncomfortable with the transfer of the decision-making abilities to the student, the prospective guardian needs to petition for guardianship at the local probate court.

Age 16: Begin to investigate

Age 18: Transfer of rights to the student. Establish legal guardianship or a power of attorney if necessary. You can consider hiring a lawyer knowledgeable in guardianship.
